¹ (b) Under this section, information is material to patentability when it is not cumulative to information already of record or being made of record in the application, and

(1) It establishes, by itself or in combination with other information, a *prima facie* case of unpatentability of a claim; or

(2) It refutes, or is inconsistent with, a position the applicant takes in:

(i) Opposing an argument of unpatentability relied on by the Office, or

(ii) Asserting an argument of patentability.

A *prima facie* case of unpatentability is established when the information compels a conclusion that a claim is unpatentable under the preponderance of evidence, burden-of-proof standard, giving each term in the claim its broadest reasonable construction consistent with the specification, and before any consideration is given to evidence which may be submitted in an attempt to establish a contrary conclusion of patentability.

S I R:

After the Declaration, which is submitted herewith, was signed by the inventor, it was noted that it contained an incorrect designation of the Attorney Docket No. for this application on the first page. The correct Attorney Docket No. is P03,0332, but the Declaration has P03,0331 thereon. Nevertheless, the Declaration also states that the application is "attached hereto," which is sufficient under the rules to properly identify the application. If necessary, a substitute Declaration will be subsequently submitted.
